

To Whom it May Concern

Soltech Advance Engineering Solutions was one of TIKA succeeding bidders to supply, install and commission "2000 Liter vacuum tubes solar system" for Saint Nicola Senior Citizens House in Beit Jala, they fulfilled the works according to the required specifications, within budget and despite the crucial time they were able to hand over the project without any delays.

Soltech team proved professionalism in dealing with this project throughout its cycle from planning, implementation to closing and final reports.

We are pleased and satisfied with the end result and we wish them to continue working with the same energy and spirit.

Sincerely,

Ahmet Refik Cetinkaya / Tika Palestine
